Professional Experiences

Thales Alenia Space
Cannes | **Internship 5 month**
Software developper
2023

As a intern in the IVVQ department at Thales Alenia Space, I had the opportunity to develop a tool for synthesizing the testing of satellite parts. The software was developed using a mix of C++ and Python, compiled using Cmake and installed using an automated installation script. It uses a 'Service Locator' design pattern, open source libraries and creates a report each time it is used to give engineers visibility of its execution.
I had the opportunity to train a team in the use of this software and to create full documentation.

Tutor: Philippe Cam

Les Agences de Papa
Nice | **Internship 6 month**
System & network
2021

As an intern in the IT team, I had the opportunity to participate to the development of this service. I contributed to: the change of the internal Vlan of the company and the installation of firewalls.
I delivered a hardware/software inventory, procedures and workflows for the company's CRM.

Le Ranch
Cagnes sur mer | **Summer Job of 2month**
Bar clerk
2019

As a bar clerk, I had the opportunity to discover the catering sector !

Interests

- Sports (Tennis, badminton)
